(1973:251). And writing about the greater probability of violence inherent in a sudden increase in deprivation, he says: "The psychological basis lies in the frustration of basic needs, a frustration induced by the sudden reversal in gratifications" (1973:246-247). As the frustration-aggression hypothesis falls, so does Davies' theory.

FRUSTRATION, DEPRIVATION, AGGRESSION, AND THE CONFLICT HELIX

Anger is a type of feeling whereas aggression is a type of behaviour. However, the two are frequently confused with each other. At different times individuals use their anger as a reason to act in an aggressive way. Here are a few differences between anger and aggression: Anger is an acceptable feeling simply like bliss or sadness. Everybody ...
