Kinship has traditionally been one of the key topics in social and cultural anthropology. There are two principal reasons for this: First, although not all human groups are constituted on the basis of kinship, all humans have kinship as individuals and are related to other individuals through it. Second, for the sorts of "tribal," classless, economically unspecialized societies that anthropologists

ANTHROPOLOGICAL PERSPECTIVES Introduction to Anthropology Anthropology is the study of human differences, cultural and biological, in the context of human nature. Anthropologists identify and compare behaviour of a particular group against the full range of human behaviour. Such comparison should uncover principles that apply to all human

ANTHROPOLOGICAL PERSPECTIVES Introduction to Anthropology

To answer this question is to jump directly into one of the key controversies of anthropology: anthropologists, associated for over a century with the close study of kinship. The basic problem: critique of the study of kinship[1] The problem with defining 'adoption' for an encyclopedia of anthropology is this: on the one hand, what anthropologists know about adoption is evidence for some of our most central tenets; particularly that kinship is produced through social, linguistic, and ...
