Freshwater - Freshwater is different from the salty ocean water; freshwater contains less than one percent of salt. Other biomes, like tundra, desert, and grasslands, cover vast areas of earth that are measured in thousands of square miles but freshwater biomes can be as tiny as a drainage pond that you see from the highway or the stream that flows under a highway bridge.

### Biomes Reading Comprehension Worksheets

An ocean is more than just saltwater sitting still and lakes and ponds are more than just freshwater pools. Students learn about the layers and dynamics of oceans and lakes with these worksheets which are usable with an on-line source that discusses Aquatic Biomes.
