BMW Gear Ratios. The Chart below shows E36 E46 E90 E91 E92 E93 E85 E86 E83 E82 E88 transmission gear ratios. It only shows cars that were available in the US. Note: Data may not be 100% accurate. Please let me know if you see any errors

**BMW Gear Ratios - E36 / E46 / E90 / E91 / E92 / E93 / E85 ...**

The gearing ratios between these two transmissions are essentially the SAME! What does this mean for you? Gearing for ALL E46s are the same. The only REAL difference is the final drive ratio that BMW chose to put in each car. 3. Some manual transmission cars already come with a 3.46 final drive ratio in stock form. 323/325 convertible and 323/325 Touring 4. E46 M3s use a 3.62 final drive ratio. They're able to get away with using such a high ratio since they have an 8000 RPM rev limit.

Specifications Preliminary Note. Below is a table of reference gear ratios as provided with the ZF 8HP transmission, though actual implementations may differ depending on the tuning and specifications of individual vehicle manufacturers such as BMW and Audi.Differences in gear ratios have a measurable, direct impact on vehicle dynamics, performance, waste emissions as well as fuel mileage.

**ZF 8HP transmission - Wikipedia**

There was also an optional close ratio 5 speed gearbox with a dogleg pattern and a 1:1 (prise direct) 5th gear for more sporty characteristics. The 5 speed gearboxes can be distinguished from the 4 speeds easily as they have an extended housing at the rear. The ZF 3HP-22 auto box has 3 gears. Sports 5-speed, click to enlarge

The reverser mechanism on the K1200LT occupies the space where 5th gear usually lives, so there are only five speeds in all (the 4th gear ratio is changed to better bridge the gap). R1200C prior to the CL also came with only five speeds because BMW skipped 5th. However, the overall design and shifting mechanism are common to all of these versions.

**Gear Ratios | MyE46**

If memory serves, M20 and diesels are 20 degrees from vertical, while most BMW gassers are 30 degrees. Many older Getrag 5-speeds, including the one fitted to M20, have 0.81 top gears, a minor but not negligible drop from the 0.85 of a 378Z. I seriously considered using one of those instead of a 6-speed.

A BMW automatic transmission holds about 9.5 qt of ATF fluid. That is full system capacity, which includes all the oil in the transmission, oil pan, and torque converter. If you are not going to flush the whole system but only drain the oil pan you need about 4.5 qt of oil. Common BMW Transmission Problems Transmission Mechatronic Sleeve

This list of ZF transmissions details those automotive transmissions created by the German ZF Friedrichshafen AG engineering company.. There are two fundamental types of motor vehicle transmission: . Manual – the driver has to perform each gear change (i.e., the driver is required to shift gears); Automatic – once placed in drive (or any other 'automatic' selector position), it selects the ...

**List of ZF transmissions - Wikipedia**

Since the gear ratios are specific to the M93, you will end up with shorter gearing if you replace one with an M94 or M97 and don't also change the final drive. Otherwise, the later versions will drop right in. Primary reduction: 35:22 (1.591) Gear ratios: 38:15 (2.53), 34:21 (1.619), 32:27 (1.185), 29:30 (0.967), 29:35 (0.829)

Hi Yoshi, What transmission which Getrag gearbox has numbers 220.0.0225.967 From which E36 model is that, is it 31BIS or 31BIS Motorsport 27 I have a 325i E30 with 2.8 conversion, my diff is 3.15 limited slip and I am currently using some E36 transmission which is running SUPER until around 160kmh where it looses power and the limiter will kick in at 6500rpm and car is at 200kmh on 5th gear ...

**Transmission ratios -E30 Performance**

This gear must be replaced if it appears to have worn to even vaguely questionable; the replacement gear from BMW is hardened. For the helical, cluster, and 5th gear, BMW changed all by approximately mid-1982 (supposedly at transmission serial 58225), from a helical gear angle of 15° to new angle of 17-1/2°. The fiche may show earlier in 1982.
