Fix Error: Borland database engine \$2108

An error occurred while attempting to initialize the Borland Database Engine (Error \$2108) I realize that the problem is that the BDE engine is not installed on my friend's PC. That's not really a big problem, since the table/database is not the main focus of the program, and only serves a minor function.

Borland Database Engine (Error \$2108) Solutions | Experts ...

If this is the case, the PDS program detected the presence of an older version of the Borland DB Engine (BDE) interface as it attempted to install a newer version. This is sometimes caused when the workstation already has Corel/Word Perfect installed, which includes their own version of the BDE.

_"\$2108 Initializing the Borland Database Engine"

In a user's system while executing the project he is getting an error like " An error occurred while attempting to initialize the borland database engine. Error \$2108" Am new to delphi.
