module for enhanced low-end performance. Put your PA behind you. The vertical configuration of the system's small, closely spaced drivers allows the L1 Model 1S system to project sound forward and to the sides—delivering 180-degree coverage—but very little up and down, reducing unwanted reverberation.

Bose L1S Single B1 Bass - Stage Sound

The Power Stand detects resistors in the Bass Module across (2+ and 2-) that identify if the Bass Module is a B1 or B2. If B1, then adding a second B1 is detected and the Power Stand responds accordingly. If B2, the setting on the Bass Level switch changes the resistance and the Power Stand responds accordingly.
