has been around since 2007 when BS1192 was first released and it sets out how we're supposed name everything - documents, drawing, models and data files. If we can start to adopt a common naming convention across the industry it will actually be an enormous advantage - clients will instantly understand what something ...

renovations & new construction often lend themselves to different drawing arrangements, mainly w/ regard to CAD layering. However, I think most of the numbering systems mentioned here provide a good layout. Just don't get too bogged down in it, remember, it's the content & showing a rational sequence of construction dwgs that counts.
