A while back one of our printer forum members submitted the article "Canon i960 Printer Cover & Base Removal".. Another one of our community members, wfmcg, replied that he had created a Canon i960 teardown document with pics. I asked if he'd be willing to send it to me, and did. I was impressed and asked permission to post, so here it is:

I think I have narrowed down my search to the canon s9000 and the canon i960. Is the quality of the i960 really that much better than the s9000 that it would be worth buying a smaller format printer? I have never had a printer in the past capable of printing 13x19" so I have little experience with this size.
