Tronto starts by saying that care and democracy don't seem to go well together, because care implies asymmetry among people and democracy considers all as equals and care has been kept out of politics. There is, she says, a need to think about what democracy is and about democracy to become more inclusive by including caring.

With Caring Democracy Tronto contributes to renewed efforts to theorize the interaction between economic and political forces of contemporary life. The work vividly illustrates how democracy depends on activities that are often ignored, undervalued and left out of public discussions, and provides a devastating account of how gender norms, tropes of choice and personal responsibility, and market mechanisms are deployed in the neoliberal context to undermine both care and democracy.
