maintenance manuals. The safety precautions to be observed for this saw are found in these same manuals. The primary difference between this saw and other saws of this type (field saws) is the location of controls. Tilt-Arbor Table Bench Saw A tilt-arbor table bench saw (figure 3-2) is so named because the saw blade can be tilted for cutting

Carpentry Technology Introduction to Carpentry (CAR701A) Course Description Introduction to Carpentry Technology allows the student to explore the trade of carpentry. Students will be introduced to the tools, equipment, and practices common to the trade, with a constant emphasis on safe work habits.

Carpentry 701A - Introduction to Carpentry Technology

A lot of your time in the workshop will be spent on sanding. Having a random orbital sander is paramount unless you want to go 100% of sanding manually and feel absolutely miserable. Corded orbital sander would be a better option than a battery-powered one because you don't want any interruptions in your sanding sessions.
