ANY decent running engine should cost \$35 to 40K. Now add in rarity, desirability (really big or small) and provenance (history) you can see that Case steam tractors have really not risen to nearly the levels they might. I do not think there where ever be a time where you will not be able to operate a steam engine.

### **Case steam traction engines for sale**

J. I. Case Steam Tractor Number 26701 was built in 1912. It has a 75 hp, single cylinder, double acting steam engine. It was shipped by rail to the J. I. Case dealer in Billings, Montana. The dealer did not sell it immediately so he leased it for plowing and threshing in the fall of

## **Case Steam Traction Engine Dyno - YouTube**

The 150 Horse Power CASE steam engine is somewhat like the story of the Titanic. It was built as the largest steam traction engine of its time, but all we have left are the stories and a few pictures. Ever since I was a little boy listening to the stories George Hedtke would tell about this great engine I was fascinated by it.
