Children in Intensive Care : Joanna H Davies : 9780702067440

At the Neonatal Intensive Care Unit (NICU), our 104-bed NICU is equipped and staffed to deliver a full range of medical care services. From at-risk infants to critically ill neonates throughout the state, the NICU at Arkansas Children's has been the preferred choice in intensive care for mothers,

expectant mothers, and infants throughout Arkansas.

Neonatal Intensive Care Unit - NICU | Arkansas Children's

More than two-thirds of children who stay in intensive care for ≥ 28 days have an unfavorable outcome (moderate disability, severe disability, or death). Long-stay patients in pediatric intensive care utilized a large proportion of resources and this utilization has considerably increased with time. Service provision and policy making should expect worsening of these trends in the future; its effects on critical care bed availability and overall activity levels could be substantial.
