Go over the User's Information Manual and Section 23, "Maintaining Furnace In Good Working Order" in this manual with the user. Make sure the user understands the importance of following all safety precautions, including what could happen if they do not. Attach the following documents to or adjacent to the furnace.

HIGH-EFFICIENCY UPFLOW FURNACE INSTALLER'S INFORMATION MANUAL

If you see one or two of these "ash trays" on your furnace, there is a high probability it is a Consolidated furnace. Next, look at the manufacturer's label. If the model number begins with HAC, HCC, HCA or HBA it is not safe to use. These are the most common model numbers used for these units, however, there are also a host of others used.

Quattro Gas Furnaces - HVAC-Talk: Heating, Air ...

I don't know why Consolidated decided to stop this label. If you're hearing what you said above from HVAC reps or techs they are just trying to scare you into buying a new furnace. If you plan to make changes to or add AC, given the age of the unit and its obsolescence, replacing it may be a good idea but don't let scare tactics affect your ...

We recently bought an older home that has a Quattro furnace ...

Good Evening members, Recently the heater in my house stopped working properly and after inspecting it I found that the burner on my Quattro style furnace needed to be replaced. I attempted to find replacement parts for my Consolidated Industries furnace and was unable to find any parts. would someone be able to point me in the right direction so that I can fix my furnace.

Need parts for Consolidated Industries Quatro Style Furnace.

Hi, my furnace is a Consolidated Industries model MBA060NH3R and there seems to be a problem with the DELAY located on the control board in the furnace. It's a little red box that has two white dip switches. When I move them to first setting (both down - 60) and turn the furnace on, everything seems to shut back off right away.
