About Corporate Governance in the Shadow of the State. Over recent decades corporate governance has developed an increasingly high profile in legal scholarship and practice, especially in the US and UK. But despite widespread interest, there remains considerable uncertainty about how exactly corporate governance should be defined and understood. In this important work, Marc Moore critically analyses the core dimensions of corporate governance law in these two countries, seeking to determine ...

Corporate Governance in the Shadow of the State ...

In our new paper Shadow Governance, we investigate these non-charter, non-bylaw shadow governance documents and show how they influence corporate decision-making. We find that shadow governance documents are important and influential. They merit a more robust conversation about their role, impact, and use within the corporate governance ecosystem.

Corporate governance in the shadow of the state (Book ...

In my recent book, Corporate Governance in the Shadow of the State (2013, Hart Publishing), I demonstrate that this question is not just an academic one in the pejorative sense. On the contrary, it is arguably the most important issue confronting those who study or teach the subject of corporate governance in any level of depth or analytical rigour.

The use of shadow IT has risen with the explosion of consumer cloud-based SaaS products. What are the security risks, and why is an effective governance plan part of the solution? In the past, IT held all the power. If users wanted access to a new product or tool, they had to put in a request and wait for it to be approved.

IT governance best practices: what is shadow IT? - ShareGate

A Shadow Director is an "officer" within the definition of the terms in Section 2 (59) of the Companies Act, 2013, as it includes, "any person in accordance with whose directions or instructions the Board of Directors or any one or more of the Directors is or are accustomed to act".

Role Of Shadow Directors - ILeaders

Shadow IT emerges when employee behavior begins to sidestep information governance processes and controls, and as a result, security, compliance, and privacy risks snowball. A recent study by Ponemon Institute, for example, estimates the average cost of a single data breach at US \$3.92M.
