The Studio Pro is designed to quickly get you moving, but it was also designed to easily be moved. Whether you're tight on space in an apartment, or just like to move things around a bit, the front-mounted transport wheels make it easy to reposition your equipment if it's not in the right location or move it completely out of the way when you're finished with your workout.

Proforma

Summary. The first phase includes all costs incurred during planning and construction, including hard and soft costs. Hard costs tend to flow over the life of a project like an S curve: at first when the land is being cleared, construction costs are relatively low, but as more labor and capital-intensive work takes place, costs begin to soar. As the finishing touches are added, costs top out.

On the left is a circle knot garden, in the center is a formal garden with lots of color, but very geometric shapes, and on the right is a formal garden with a clipped boxwood hedge to create the form of the beds. All of these photos were taken at the Missouri Botanic Garden. Informal gardens tend to use curves and free flowing forms.
