In the 2nd and 3rd edition settings Dark Sun has a unique cosmology that differed from the standard D&D cosmology. The material plane is surrounded by three coexistent transitive planes; the Astral Plane, which is the standard plane from the core cosmology; the Elemental and Paraelemental planes; and the Gray and the Black, which are unique to the setting. The rest of the planes from the D&D ...

Astrophysics is a science that employs the methods and principles of physics in the study of astronomical objects and phenomena. Among the subjects studied are the Sun, other stars, galaxies, extrasolar planets, the interstellar medium and the cosmic microwave background. Emissions from these objects are examined across all parts of the electromagnetic spectrum, and the properties examined include luminosity, density, temperature, and chemical composition. Because astrophysics is a very broad su

Sunscreen use is particularly low among men, non-Hispanic blacks, people with less sun-sensitive skin, and people with lower incomes. Each year, nearly 5 million Americans are treated for skin cancer at a cost of about \$8.1 billion. Yet most skin cancers can be prevented by avoiding too much exposure to ultraviolet (UV) rays from the sun or indoor tanning.
