Systems. The destructions of fire and it's the aftermaths necessitate a secure fire alarm system. Fortunately there are many fire alarm systems already available in the market that cannot only warn about fire cases but can also suppress the intensity of fire. Two such systems of fire alarm are ultra-high-speed explosion suppression and ultra-

special hazard fire protection systems. I felt that it lacked a bit of depth in some areas; I had to use the Fire Protection Handbook (2 Volume Set), SFPE Handbook of Fire Protection Engineering, and pertinent codes and standards to fill in important gaps. This book seems to be geared more to a technician's level of knowledge rather than an engineer's.
