The space element of ether integrates the other four elements. If too much is present in a person's system, a person becomes ungrounded, "spaced out". Sleep disturbances or difficulties with communication are two of the other symptoms that closely relate to an imbalance involving the element of ether.

Perceiving life processes through holistic lens of Homeopathy

The combination of the vital force and the natural force distills the essences of the four elements which become the four humours of the body, the bile (earth), phlegm (water), blood (fire) and atrabile (air).The essence which is left over is distilled into the psychic force (pneuma psychikon) which is stored in the pineal gland and nourishes the spirit (Anima). The bilious humour is made up predominately of the dry earthy element but has a secondary part of fiery heat.
