FUJI ELECTRIC | Research & Development | Fuji Electric Review

In addition, Voith launched a new product, the Voith Schneider Propeller (VSP) for commercial vessels. This new marine drive could significantly improve the manoeuvrability of a ship, being invented by the Vienna engineer Ernst Schneider, and enhanced by Voith.

Voith - Wikipedia

The Voith-Schneider propeller is a specialized marine propulsion system. It is highly maneuverable, being able to change the direction of its thrust almost instantaneously. _____, 1977 9115 Targa 2.7L (CIS) Silver/Black.

Voith-Schneider: Marine Propulsion - Pelican Parts Forums

The fireboats will be equipped with two Voith Schneider Propellers, VSP 26GI/165 AE45, each in the vessel. The relatively short VSP blade length of 5.4 feet makes it possible for the fireboats to enter shallow areas of the port without compromising maneuvering safety. The vessels can therefore also support onshore firefighting.

Two New Fireboats with Voith Propulsion Technology for ...

The Voith-Schneider propulsion system has generators that provide electricity to drive horizontally-orientated "paddlewheels" that create a water thrust whose direction is altered according to the direction in which the tug has to move. If the tug is to go ahead, the water jet will need to be jetted out astern.
