Moon Phase

Gardening ...

Gardening by the moon has been practised through the ages.

Gardeners know seeds and plants grow more quickly during some parts of the month than others. The reason is the moon has a strong gravitational pull. Just as it controls the tides, so it controls the moisture in the soil and influences how quickly seeds

moon, the lunar gravity pulls water up, and causes the seeds to swell and burst. This factor, coupled with the increasing ...

The Benefits of Moon Gardening - The Micro Gardener

The moon's pull is stronger than the sun because, even though the sun is larger, the moon is closer to the earth. As the moon gets full or waxes, its

Online Library Gardening By The Moon 2016

gravitational pull on the earth gets stronger. And it is felt the most when the moon is full (the moon and sun pull from the opposite sides of the earth at this time).

Gardening by the Moon

Transplant plants and prick off sprouts.

During the waxing moon it is a good time for setting legumes.

Set annual and
