Gcp For Emergency Medicine

GCP for Emergency Medicine. This presentation is intended for emergency physicians involved in recruiting patients to clinical trials and/or caring for patients who are in clinical trials. It covers the essential elements of research governance, the EU Directive on Clinical Trials and ICH-GCP. Emergency physicians who are involved in clinical trial management will need additional training and should contact their local research office.

GCP for Emergency Medicine

Training in Good Clinical Practice for medical research (GCP) is required for everyone who is taking any part in medical research. A current GCP certificate is a good way of demonstrating competence in one aspect of the Research part of an Annual Review of Progress for trainees or re-

and answers (Q&As) on good clinical practice (GCP), as discussed and agreed by the GCP Inspectors Working Group.

Q&A: Good clinical practice (GCP)

Good clinical practice (GCP) is an international ethical and scientific quality standard for designing, recording and reporting trials that involve the participation of human subjects.

Compliance with this standard provides public assurance that the rights, safety and wellbeing of trial subjects are protected and that clinical-trial data are credible.
