Having been on the boat market for several decades, Honda outboard motors managed to win numerous fans. These motors are distinguished by their very reliable uninterrupted work, which no one has yet complained about. On the contrary, Honda engines, as boatmen note, are capable of serving a very long time. Sometimes even for several decades.

It is very lacking in useful schematics and specifications as well as step-by-step procedures. One would do far better to get the Honda shop manual for the specific model outboard you have. I found this totally useless as a reference. Perhaps it has a value as an historic overview of Honda outboards. Nothing more.
