Type a username, password, and password hint, and then click "Next." After clicking "Next", you're kicked back to the Accounts screen you saw earlier, but your new user account should now be listed. The first time someone signs in using the account, Windows will create user folders and finish setting things up.

How to Create a New Local User Account in Windows 10

The CREATE USER statement allows you to create a new database user which you can use to log in to the Oracle database.

The basic syntax of the CREATE USER statement is as follows:

```
CREATE USER  
username IDENTIFIED  
BY password [  
DEFAULT TABLESPACE
```
