Infants & Toddlers (Ages 0-3) - Milestones & Schedules

Read Online Infants Toddlers And Caregivers 8th Edition

Attachment to parents and primary caregivers is normal. Around eight or nine months, separation anxiety surfaces, and babies object to being away from parents or caregivers. By four months of age, vision improves, and infants pay attention to bright objects, preferring primary colours, particularly red.

Each child has his own personality and responds to caregivers or experiences differently. Just like adults, children may have outgoing, shy, or even-tempered natures. Your caregiver should be in tune with your child's special personality and treat your child in a positive and caring manner that agrees with his special personality.
