Basler: admin/admin. Bosch: None required, but new firmwares (6.0+) prompt users to create passwords on first login. Brickcom: admin/admin. Canon: root/camera. Cisco: No default password, requires creation during first login. Dahua: Requires password creation on first login.

## **IP Cameras Default Passwords Directory - IPVM**

That's why I created this IP camera default password list, so people can use it. Due to security issues in the past, most of the new IP cameras don't have a default password and you have to create one during the installation. This password list is for old IP camera models or cameras which still have old firmware.

First, users must create a password when the camera is first booted or whenever it is factory defaulted. There is no default password. Second, the admin password must be at least 8 characters and follow two complex rules, as seen in the image below. These rules do not allow Samsung's earlier default password ("4321") to be used.
