Liminality is a logical transition for tourists since they are leaving the comfort of home to travel crossing in time and space some threshold or boundary to some unknown experience. This frequently reflects the period and space in the anticipation and travel to and from different phases of the experience (Clawson and Knetsch, 1966; White and White, 2004; Light 2009; and Lew, 2012).

"The liminal has become a popular way of interpreting the experiences of travel from airports to train travel. Few give an explicit discussion of the meanings and origins of this term - this book does. To this end, [Liminal Landscapes] is a helpful addition to understanding the affective state of movement." Journal of Transport Geography 28, 2013.

Liminal Landscapes are the magical places in our lives that exist in between the tick-tock of everyday living and the luscious places of dreaming. This space, although hopefully inspirational, is meant to be a practical one and we hope you can walk away and apply something that you've learned as we resurrect earth knowledge that many have lost along the way.
