Mafiaboy

Michael Calce (born 1986, also known as MafiaBoy) is a security expert and former computer hacker from Île Bizard, Quebec who launched a series of highly publicized denial-of-service attacks in February 2000 against large commercial websites, including Yahoo!, Fifa.com, Amazon.com, Dell, Inc., E*TRADE, eBay, and CNN.

MafiaBoy - Wikipedia

Michael Calce, who went by the online name Mafiaboy when he launched a massive cyberattack at the age of 15, now works as a security consultant for companies trying to protect their online systems...

Meet Mafiaboy, The 'Bratty Kid' Who Took Down The Internet ...

Mafiaboy, apparently, was a young hacker that became famous in the inner circuits of internet hacking. Not enough to become a blockbuster, the telling of the story lacked some elements like suspense, dramatic prose, and did not really command my attention as a reader. I did buy the book, anyways, perhaps hoping for something else.

Mafiaboy: A Portrait of the Hacker as a Young Man: Calce ...

By Kevin Johnson USA TODAY MONTREAL -- Nearly a year after a hacker shut down some of the biggest names on the Internet -- causing an estimated \$1.3 billion in lost business -- prosecutors and lawyers representing a defendant known as Mafiaboy are locked in a high-stakes game of chicken over whether the case will go to trial.

Mafiaboy - Hack Story

Mafiaboy's story is not as exciting as, say, watching Hackers or even reading about some of the other hackers he idolized at the time (Kevin Mitnick, Kevin Poulsen, etc.). The internet security tips included are pretty basic, but are a must-read for anyone who uses the internet (i.e. everyone!).

Mafiaboy: How I Cracked The Internet And Why Its Still ...

Mafiaboy is specifically accused of the four-hour attack on CNN.com on Feb. 8. Police said the youth boasted of the attacks in chat rooms and other areas. "Hackers like to brag about their ability;...
