Medical parasitology is the science that deals with organisms living in the human body (the host) and the medical significance of this host-parasite relationship. ASSOCIATION BETWEEN PARASITE AND HOST A parasite is a living organism, which takes its nourishment and other needs from a

lecnote fm degree and diploma Med Parasitology
Parasitology tends to be the least represented discipline in microbiology on the USMLE Step 1 exam, compared to bacteriology, virology, and mycology. This is because parasitic infections tend to be rarer in the United States than bacterial, viral, or fungal infections and thus have less of an impact on the United States medical system.

Parasitology : (protozoology and helminthology) In ...
Medical Parasitology; Perhaps the best-known aspect of the significance of parasites is the role they play in causing human disease. Insect parasites such as fleas and lice are, at best, annoyances to humans, and as vectors of diseases such as the bubonic plague and typhus they have been responsible for a great deal of human mortality.
