Stator Rewinding Service | Baja Designs

We currently offer a repair service for racing ignition stators and generators for GP 2 stroke classic and modern machines, including 3 phase to single phase conversions. This reduces the weight and magnetic drag of your original road stator, ideal for track day use. We can also supply an ultra light weight generator kit for the highest spec racing engines, giving up to a 4 bhp increase depending on machine.

Westcountry Windings - Applications

Unwind the damaged wire from the stator head with your fingers. Clean the surface of the head with a piece of fine-grade steel wool and wipe the head clean with a lint-free cloth. Step 4 Coil new copper wire, of the same gauge as the existing wire, around the cleaned stator heads in the same direction as the wire which was removed.
