There's something about street photography that's exciting. It's the appeal of capturing that right moment. When you combine that with the mystery of night time photography, it's no wonder night street photography is so popular. But this is also one of the more challenging types of photography to get right. The reason for that is the lack of light, making photography more difficult.

One of the founding fathers of night photography was Brassai, a Hungarian emigre to France who made his mark on the young art form with his 1933 book, Paris de Nuit (Paris by Night). Brassai's images drew sharp contrasts between extreme light and extreme darkness, between the pure white of the city's artificial, electric lighting, and the ...
