Operations management is important, it is exciting, and it is challenging. It is concerned with creating the products and services upon which we all depend and creating products and services is the very reason for any organization's existence, whether that organization be large or small, manufacturing or service, for profit or not for profit.

Operations Management by Nigel Slack

Operations management is important, exciting, challenging ... and everywhere you look! Important, because it enables organizations to provide services and products that we all need Exciting, because it is central to constant changes in customer preference, networks of supply and demand, and developments in technology
