USFG - has designs for everyone from beginners to experts.

**Facet Designs - Poly-Metric**

Usually gems are fashioned so that the observer is looking through the table, the flat top facet on the crown (top portion) of the gem, to see how light has been collected and returned back to them to view. The girdle is the outer edge of the gem, where metal grips the stone to hold it in place in jewelry or art. The pavilion is the bottom portion of the gem.
