A simple strategy for outsourcing is to create a list of the positions, and associated tasks for each position, and then determine where you currently have holes in your processes or systems, or where there are places that can be run more effectively, or efficiently. Those areas are generally the first and most ideal candidates for outsourcing.

The concept of outsourcing means that one company is actively trying to obtain products or services from a third party one. They typically seek to outsource services such as accounting, manufacturing, copywriting, reporting, and so on. Many people believe that outsourcing refers to hiring a cheaper service provider from another country.

## **Outsourcing and Offshoring 101: What Are They All About?**

Outsourcing, in the eBay context, is the practice of hiring an outside person or company to complete tasks related to the business. It can also be referred to as 'contracting out.'

Outsourcing is used successfully in many (eBay and non-eBay) businesses and government services around the world to increase efficiency and profitability.
