Primary Mathematics 1-6. Primary Mathematics is the original math curriculum that put Singapore at the top of international math tests. This renowned series has two decades of proven results in the U.S. Primary Mathematics epitomizes what educators love about the Singapore math approach, including the CPA (Concrete, Pictorial, Abstract) progression, number bonds, bar modeling, and a strong focus on mental math.

Primary Mathematics | Singapore Math

This series provides supplementary material for students and their teachers—laboratory, exercises, projects, historical information, textbooks with unusual approaches for presenting mathematical ideas, career information, and much more. The books in this series are paperback.

Book Series | Mathematical Association of America

The top two series contain both in-depth mathematics content and excellent instructional support. Most of the textbooks do a satisfactory job on number and geometry skills. A majority of textbooks do a reasonable job in the key instructional areas of engaging students and helping them develop and use mathematical ideas.
