Planning Lessons and Courses by Tessa Woodward

Designing a Course Begin the process early, giving yourself as much time as you can to plan a new course. Successful courses require careful planning and continual revision. Consult with colleagues who have taught the same or similar courses to learn from their strategies and their general impressions of the students who typically take the course.

Designing a Course | The Center for Teaching and Learning

A lesson plan is the instructor's road map of what students need to learn and how it will be done effectively during the class time. Then, you can design appropriate learning activities and develop strategies to obtain feedback on student learning.

Syllabus Design and Course Planning A number of different levels of planning and development are involved in developing a course or set of instructional materials based on the aims and objectives that have been established for a language program. In this post we will examine the following dimensions of course development:

Syllabus Design and Course Planning - EnglishPost.org

Designing Your Course Using Learning Objectives Let's suppose you have chosen your topic and you are determined about what to teach in your course. When in the process of completing these steps, it is optimal either to use a pen and a paper or a concept map application to create connections between your ideas. 1 Imagine your course.
