Teaching pragmatics is important for EAL/D learners It is worth considering the tacit factors, related to pragmatics, which promote or prevent effective classroom talk. The grouping of students is one such factor. Teachers need to decide when students self-select their talk partners and when talk partners are selected for the student.

Pragmatics - Department of Education and Training

Pragmatics studies how language is used by real people in real contexts, in spoken discourse and written contexts, and is highly influenced by cultural and social contexts. When considering pragmatics in American educational settings, we must consider the structures and context of Western culture in shaping how we use the different varieties of English between speakers, in the classroom, and in American society for different purposes.
