Federal Statute on Private International Law

Conflict of laws. Conflict of laws (sometimes called private international law) concerns the process for determining the applicable law to resolve disputes between individuals, corporations (and in some systems the state in certain contractual relationships) in multi-jurisdictional cases and transactions. Conflict of laws especially affects private international law, but may also affect cases where a contract makes incompatible reference to more than one legal framework.

Conflict of laws - Wikipedia

Features. International arbitration allows the parties to avoid local court procedures. International arbitration has different rules than domestic arbitration, and has its own non-country-specific standards of ethical conduct. The process may be more limited than typical litigation and forms a hybrid between the common law and civil law legal systems.

International arbitration - Wikipedia

Private international law is the body of conventions, model laws, national laws, legal guides, and other documents and instruments that regulate private relationships across national borders. Private international law has a dualistic character, balancing international consensus with domestic
