OpenUI5

Note. Getting Started with OPA5. Explains step-by-step how to easily write tests for SAPUI5 apps. We assume a simple app that displays a button on the page after a random time between 0 and 10 seconds. After pressing the button, the text on the button changes. Again, this may take 0 to 10 seconds. This simulates the behaviour of many SAPUI5 apps: Depending on user actions and model changes, controls change after some time.
