Use the download link to download the file to your computer. If the book opens in your web browser instead of saves to your computer, right-click the download link instead, and choose to save the file.

Science And The Extraterrestrial Hypothesis

Etymology. Origins of the term extraterrestrial hypothesis are unknown, but use in printed material on UFOs seems to date to at least the latter half of the 1960s. French ufologist Jacques Vallée used it in his 1966 book Challenge to science: the UFO enigma. It was used in a publication by French engineer Aimé Michel in 1967, by James E. McDonald in a symposium in March 1968 and again by ...

Extraterrestrial hypothesis - Wikipedia

The extraterrestrial hypothesis (ETH) proposes that some unidentified flying objects (UFOs) are best explained as being physical spacecraft occupied by extraterrestrial life or non-human aliens, or non occupied alien probes from other planets visiting Earth.

Extraterrestrial Hypothesis - The Spiritual Life

unidentified flying objects. ... from other worlds, the so-called extraterrestrial hypothesis (ETH). Within a year, Project Sign was succeeded by Project Grudge, which in 1952 was itself replaced by the longest-lived of the official inquiries into UFOs, Project Blue Book, headquartered at Wright-Patterson Air Force Base in Dayton, Ohio. From 1952 to 1969 Project...

Beyond "Fermi's Paradox" VI: What is the Berserker Hypothesis?

The theory of the origin of extraterrestrial life only moves the evolution/creation debate to a remote location. Extraterrestrial life is currently a hypothetical notion. No scientific evidence of the existence of extraterrestrial life has been widely accepted by scientists. One thing sited as evidence of extraterrestrial life is UFO sightings.

Extraterrestrial Origin of Life - Science

This became the basis of the Fermi Paradox, which refers to the disparity between high probability estimates for the existence of extraterrestrial intelligence (ETI) and the apparent lack of evidence.

A hypothesis is suggested which accounts for the extinctions and the iridium observations. Impact of a large earth-crossing asteroid would inject about 60 times the object's mass into the...

Extraterrestrial Cause for the Cretaceous-Tertiary ...

Words have precise meanings in science. For example, "theory," "law," and "hypothesis" don't all mean the same thing. Outside of science, you might say something is "just a theory," meaning it's a supposition that may or may not be true. In science, however, a theory is an explanation that generally is accepted to be true.

Scientific Hypothesis, Theory, Law Definitions

The extraterrestrial hypothesis (ETH) is the hypothesis that some unidentified flying objects (UFOs) are best explained as being physical spacecraft occupied by extraterrestrial life or non-human aliens from other planets visiting Earth.
