ASME Section XI GSE TrueNorth is the leading provider of engineering programs and services associated with ASME Section XI programs in the nuclear industry. Our diversified staff is largely made up of individuals that have formerly served as corporate managers, department managers, program engineers or have been certified as Senior Reactor Operators (SRO's) at both BWR and PWR nuclear stations.

ASME Section XI - GSE Solutions

ASME Section XI comprises three divisions, each covering rules for inspection and testing of components of different types of nuclear power plants. These three divisions are as follows: ASME Section XI, Division 1: Rules for Inspection and Testing of Components of Light-Water-Cooled Plants. ASME Section XI, Division 2: Rules for Inspection and Testing of Components of Gas-Cooled Plants.

ASME Section XI (Rules for In-Service Inspection of ...

Section 10 CFR 50.55a, Codes and Standards, of the Code of Federal Regulations requires compliance with ASME Section XI for operating nuclear power plants. In addition, 10 CFR 50.55a, Paragraph (b) (2) delineates the editions and addenda of ASME Section XI that are approved for use.

ASME Section XI: Rules For In-Service Inspection of ...

Chapter 28, authored by Richard W. Swayne, discusses the Section XI rules for in-service inspection and testing of nuclear power plant components. This chapter covers the general requirements of Section XI applicable to all Classes of components, including concrete structures and steel vessels, piping, pumps, and valves.

Section XI: Rules for Inservice Inspection and ... - ASME

This self-study course is designed to be taken at your convenience, and on your own schedule. You have 90 days to finish the course from the time of purchase. This course provides a detailed overview of the contents of the 2010 ASME Boiler and Pressure Vessel Code Section XI, Division 1 and its 2011 Addenda.

SECTION XI - ASME

This chapter discusses the evaluation of flaws in nuclear power plant components using the methods and criteria in ASME Code Section XI. It describes flaw acceptance based on the use of predefined acceptance standards and the use of detailed fracture mechanics evaluation.

Section XI Flaw Acceptance Criteria and Evaluation ... - ASME

This chapter addresses ASME Code Section XI, Subsections IWE and IWL, for nuclear power plant containments.

IWE and IWL | Online Companion Guide to the ASME Boiler ...

The ASME Code Section XI provides standards for the examination, in-service testing and inspection, and repair and replacement of nuclear power plant components, pressure vessels and piping. The code details if a flaw found within a component is acceptable for continued operation, or if the component instead requires repair or replacement.

ASME (American Society of Mechanical Engineers) XI - Flaw ...

Every 3 years the ASME publishes a new edition of the BPV Code, including Section XI, and new addenda are published every year. The latest editions and addenda of Section XI that the U.S. Nuclear Regulatory Commission (NRC) has approved for use are referenced in 10 CFR 50.55a(a)(1)(ii). The ASME also publishes Code Cases quarterly.
