Artillery and Mortar Tactics of WW2 - Steven's Balagan

History Pre-Vietnam War. Prior to the Vietnam War, SEAD was an undefined mission: although attempts to destroy enemy air defense sites were undertaken, they were done so on an individual aircraft basis and in relation to specific targets or operations rather than as part of an overall strategy or doctrine of defense suppression. While crude, these tactics were effective for their time.

Suppression of Enemy Air Defenses - Wikipedia

Trying to understand how these work in combination. I think, but I could be wrong ... Fire at will (on) means the unit will identify and fire at targets. IF it is off the unit, obviously will not. If on, this overrides any AI control that would be on. Meaning if fire at will is on, they will always fire first at targets the unit prioritizes. IF AI Fire control is on and fire at will is off ...
