Blanketed in Spring Pollen . One harmless reason for yellow-tinted snow is pollen. Common in spring snows when flowering trees are already in bloom, pollen can settle in the air and on snow-covered surfaces, altering the white color of snow.If you've ever witnessed your car covered in a thick coat of yellowish-green mid-April, then you know how thick a coating of pollen can be.

What Is Yellow Snow? - ThoughtCo

Decomposition Analysis: It is the pattern generated by the time series and not necessarily the individual data values that offers to the manager who is an observer, a planner, or a controller of the system. Therefore, the Decomposition Analysis is used to identify several patterns that appear simultaneously in a time series.
