Abstract and Keywords. This chapter is devoted to the mechanisms of engagement and disengagement in collective action as they are currently conceived in social and political psychology. Dynamics of collective action are decomposed into dynamics of demand, supply, and mobilization. Dynamics of demand are about people and their motives, dynamics of supply about organizations and their appeals, and dynamics of mobilization about the convergence of demand and supply.

Abstract. Every social movement is in part shaped by the technology available. Activists have always utilized the latest communication devices to recruit, share and distribute information, and mobilize support—whether it be the pen, printing press, telegraph, radio, television, the Internet, or high-speed digital technologies.

Social Movements and New Technology: The Dynamics of Cyber ...

Social movement, a loosely organized but sustained campaign in support of a social goal, typically either the implementation or the prevention of a change in society's structure or values. Although social movements differ in size, they are all essentially collective. That is, they result from the more or less spontaneous coming together of people whose relationships are not defined by rules and procedures but who merely share a common outlook on society.
