The Laws Of War A

The law of war is the component of international law that regulates the conditions for war and the conduct of warring parties. Laws of war define sovereignty and nationhood, states and territories, occupation, and other critical terms of international law. Among other issues, modern laws of war address the declarations of war, acceptance of surrender and the treatment of prisoners of war; military necessity, along with distinction and proportionality; and the prohibition of certain weapons that

Law of war - Wikipedia

Law of war, that part of international law dealing with the inception, conduct, and termination of warfare. Its aim is to limit the suffering caused to combatants and, more particularly, to those who may be described as the victims of war—that is, noncombatant civilians and those no longer able to take part in hostilities.

Law of war | Britannica

The Laws of War were designed to prevent attacks on targets indispensable to the civilian population, so attacking a civilian infrastructure target such as this plant is a war crime.
